

C. SCOTT HORTON, PE

ENGINEER | GENERAL CONTRACTOR

PERSONAL PROFILE

Scott Horton, PE, is a seasoned Structural Engineer with over 15 years of experience in designing, managing, and executing complex engineering and construction projects. A dedicated professional with a proven track record, Scott brings a unique blend of technical acumen and leadership skills to the table. With a robust portfolio spanning across various industries, including commercial, residential, and industrial sectors, he has demonstrated a strong proficiency in utilizing cutting-edge technology to create cost-effective, safe, and innovative structural solutions.

Exceptionally skilled in managing cross-functional teams of engineers, architects, and contractors, Scott has consistently delivered projects on time and within budget. He is well-versed in all phases of project life cycles, from initial planning and feasibility analysis to construction oversight and quality assurance. His multidisciplinary approach to engineering problems not only ensures a high-quality structural design but also facilitates smooth coordination among all stakeholders.
